RE: GN Docket 11-65

Dear Chairman Genachowski,

I am writing to you today to urge your support of the proposed acquisition of T-Mobile by AT&T. The Wisconsin Coalition for Consumer Choice strongly supports this merger because it will immediately increase consumer choices and access to quality broadband and mobile services.

Thousands of new cell sites will become available, the nation's broadband footprint will be significantly expanded, and most importantly, more than 46 million more customers will gain instant access to 4G LTE technology – many of them right here in Wisconsin.

In a time when we are more connected than ever, and we face a scarcity of spectrum, this merger is a natural step in the right direction to ensure consumers will have increased access, more choices and better service.

Please join the Wisconsin Coalition for Consumer Choice in supporting this acquisition, which will promote choice and competition to ensure we have the best technology products and services available.

Sincerely,

George Klaetsch  
Executive Director
